III. Concerns

1. Mr. Bobet Tan of BTLC Engineering Supply and Services said that the duration of the project is only 60 days and yet there is no cut off irrigation delivery. Is it possible that during the installation of the newly fabricated gate, there is a suspension of water delivery? Engr. Lara assured that irrigation water delivery will be temporarily suspended or IDR will be reduced during installation.
2. Engr. Romulo V. Bulatao clarified the provision of certificate of acceptance for Similar Project with one year, and certificate of completion to those Similar Projects that were completed but without Resolution of Final Inspection.
